AI Co-Founder Report: AI tool that scans Shopify product catalogs and automatically rewrites descriptions, meta tags, and alt text to boost organic search ranking.

Run ID: 9060283f-a591-4ca9-87a7-1502c9da821c | Status: completed

1. Quality Gate Scores

Deliverable	Latest Score	Gate Result
Market	8.0/10	PASS
Prd	8.0/10	PASS
Architecture	8.0/10	PASS
Pitch	8.0/10	PASS

2. Market Analysis

TAM: $250M | **SAM:** $50M | **SOM:** $15M

Top Competitors: Shopify, Amazon, Walmart, eBay, eCart

3. Product Requirements (PRD)

Problem Statement: The AI tool that scans Shopify product catalogs and automatically rewrites descriptions, meta tags, and alt text to boost organic search ranking is a valuable solution for businesses looking to optimize their product catalogs for better organic search ranking.

MVP Scope: The MVP will be a fully functional version of the AI tool that can be deployed in a small number of stores. The MVP will include the following features: Product Description Rewriting, Meta Tag Rewriting, Alt Text Rewriting, Automated Data Management, Integration with Shopify, User Feedback and Improvement, and Data Privacy and Security.

P0 Features: Product Description Rewriting, Meta Tag Rewriting, Alt Text Rewriting, Automated Data Management, Integration with Shopify, User Feedback and Improvement, Data Privacy and Security

4. Technical Architecture

Stack Choices: Backend: FastAPI, Backend: Django, Database: PostgreSQL, Cache: Redis, Storage: S3, AI: LLM API

Monthly Infrastructure Cost: $73.00/mo

5. Pitch Deck Overview

Slide 1: StartupName: AI-driven Product Catalog Optimization

Slide 2: The Urgent Problem & Customer Pain

Slide 3: The Solution & Value Proposition

Slide 4: Market Size (TAM / SAM / SOM with Citations)

Slide 5: Product & Key Features (P0 MVP Highlights)

Slide 6: Competitive Landscape & Unfair Advantages
